We are engaged in **Manufacturing** a wide range of **Clutch Plate, Brake Shoe, Piston Ring, Air Cooled Block and Cylinder Piston** etc. Our products are known for their reliability and durability.

About Us

S T Industries, established in the year 2016 is engaged in Manufacturing a wide range of **Clutch Plate, Brake Shoe, Piston Ring, Air Cooled Block and Cylinder Piston** etc. The raw materials are procured by us from some renowned vendors, who have an excellent track record in the pertinent business. Furthermore, we have installed high capacity and cost efficient machines and equipment in our infrastructure to manufacture economical and high-performance products for commercial and domestic use. We are mainly concerned with providing standard quality products and committed to maintaining their quality. Our products undergo stringent quality tests on several parameters before they are bought into the market and sold to the customers. We manufacture our products as per industrial standards. Our quality controlling unit is equipped with standard quality testing tools and efficient quality controllers. We offer our exclusive array in both standardized and customized specifications to meet the varied demands of the customers. To keep pace with the dynamic trends of the markets, we upgrade our plant facilities with new machinery and instruments. Furthermore, we also arrange periodic training session to keep them updated with the latest business and technical skills. We possess an industrious workforce which includes various personnel who work in coordination with each other to achieve maximum client satisfaction. Every member of our workforce possesses rich...
