About Us

The establishment of St. Joseph's College of Engineering ,was the fulfillment of a long cherished dream of providing facilities for higher education to the people of the diocese and surrounding regions. The main objective is to develop a college with a distinct identity and character, where education and training are imparted in a truly Christian environment conducive to fostering Christian values such as faith in God, love for their fellow men and devotion to the motherland. Every facility is provided in the campus to create an environment fully conducive to realizing this objective. Discipline, hard work, positive thinking, commitment to excellence and abiding faith in the Almighty are the guiding principles that propel the college to its vision of emerging as a Centre of Excellence in technical education in the country. Value systems such as eco-friendliness, quality consciousness and work ethics are also being instilled through the special work culture and campus life existing in the college. The college aims to provide an education that WORKS ! – an education that helps the students in ensuring a challenging and satisfying career after the course. With this in view, facilities are provided in the college for personality development, yoga and meditation training, learning skills development, employability skills development, communication skills development, expert counselling services, special tuition and coaching for weaker students and sports and games...
