We have attained the maximum clientele support due to our ability of manufacturing and supplying a technically enhanced range of X-Ray Machines and X-Ray Inverters. Our range is in strict conformation to the specific client details.
About Us

Established in 2006, **Standard Medical Systems** is a name synonymous in industry, specializing in **manufacturing and supplying** a wide gamut of **X-Ray Machines and X-Ray Inverters**. We are manufacturing our products under our own brand name **STANDARD**. The whole assortment is designed with perfection by our skilled professionals keeping the growing customers’ preferences in mind. Highly qualitative raw material is used in the manufacturing our range, which further has improved the efficiency of products enhanced their functional life. Combined with this, our products are widely getting appreciation from the clients due to their matchless characteristics, which include sturdy construction, functional efficiency, precision engineering, corrosion resistance and others. Our products are available in exceptional designs and features, as we have adopted latest manufacturing technology. Through this, we have also kept our position separate from our counterparts. Our business tasks are managed and executed under the astute guiding principles of our **Managing Director Mr. T. Chinnapa Reddy**. He has helped us positioning an enviable status in industry and garnering the maximum support of customers with his rich business insight and total knowledge of the respective field. We possess hardworking professionals, working towards attaining the set organization objectives. Selected on the basis of their skills and efficiency, we have...
