Standard Steel

<https://www.indiamart.com/standardsteel/>

We are in manufacturing, supplying and exporting premium range of Hospital and Laboratory Furniture, Instruments, Blood Bank & Dental Equipments.

About Us

Standard Steel is counted among the leading players in manufacturing and exporting premium range of Hospital Furniture and Laboratory, Blood Bank & Dental Equipment. To stay a step ahead of our competitors, we manufacture the products with premium range of raw material sourced from trusted vendors of the market. Moreover, high-tech machines, such as sharing machine, heavy bending machines and rollers are used for the manufacturing process. All the products are precision engineered and are known for the features like corrosion resistance, sturdiness and fine finish. Owing to high standards of our products, these have become first choice of the leading hospitals and nursing homes. Apart from India, 40 to 60 percent of our products are exported, covering the markets of South East Asia, South Africa, North Europe, West Africa, East Europe and Central America. A team of dexterous professionals manage the production process and ensure that quality standards are maintained at all times. The team prefers to take the client's specification before starting the manufacturing process. The products are customized as per the discussions with client and are dispatched within the estimated time period. We also have a first-rate research team that is constantly developing newer methods of production process, in order to reduce the time and cost of production. Our mentor Mr. Sachin Kumar has been guiding and motivating us since inception, owing to which we have been...
