

Star Hospital

<https://www.indiamart.com/starhospital-ahmedabad/>

Provide diagnostic services and is specialist in Cardiology, Neurology, Gastroenterology, Pulmonology, Renal/Kidney, Rheumatology & Immunology, Critical Care etc.

About Us

Medical professionals have partnered with institutions to facilitate the progress of medical services in our community. However, we have been frustrated by the lack of comprehensive high quality health care especially when it entails high - end diagnostic and therapeutic modalities. Therefore, we at STAR HOSPITAL envisioned a state of the art multi-modality diagnostic facility and multi-specialty outpatient clinic. Further sensing the need of competent, innovative, and accessible emergency care services, we expanded our ultramodern diagnostic centre to an acute care hospital with well-equipped CCU, ICCU, cardiac cathlab and ultramodern operation theater for high risk cases.
