## About Us

Steelconc And Associates was promoted by Sri Udayan Sarawati & Sri Sandip Saraswaty as partnership organization in the year 1990 for rendering Technical Consultancy service in the field of Civil & Structural engineering, Survey and Project layout aided by cutting – edge software like Stad Pro and Auto CAD with latest version.

The technical team, further develops the processes of the software according to work profile and specifications incorporating on – field changes on real – time basis. Steelconc And Associates during its existence of past 22 years, executed multi-dimensional engineering and consulting assignments. The company have till date completed over 150 major assignments covering wide range of fields and services.

With the backup of this vast experience Steelconc And Associates has also developed in the field of Structural Design & Drawing and Topographical Survey with the purpose of value addition to services. Keeping in view of this phenomenal growth during the past few years the company has put a much matured and professional project management team in place ready to give consistent outcome to the ever-growing sophisticated clientele who demands precision based solutions.
