STEEL CRAFT KOTA-The first unit in Rajasthan for manufacturing “FLUSH BUTT WELD “Steel Windows & Doors was established in the year 1985. The original technology of the plant was taken from M/S HOPES METAL, WINDOWS LTD., U.K.

About Us

Steel Craft was established in the year **1984** at **Kota, Rajasthan**. We are a preferred choice for our clients in the sphere of Manufacture, Supply and Services Provider Doors and Windows made using superior quality raw materials like Aluminum and Steel. Our products are manufactured at our state-of-the-art infrastructure facility using hi-end equipments and are well-known for their sturdiness and robust designs. They are widely used in various residential, commercial and industrial spaces. Our doors and windows are made in compliance with industrial standards under the supervision of skilled engineers. They are quality-tested before being supplied to the clients by experienced auditors. We deliver these doors and windows to clients as per their customized specifications at reasonable prices. Besides being highly damage-resistant, our doors and windows also help to enhance the aesthetic appeal of the interiors and exteriors of a particular space.

Our manufacturing unit is equipped with the latest machines and equipments for swifter production. Our hi-end technology helps us produce defect-free products within the stipulated time-frame. Our products are made using raw materials that are procured from verified and trusted vendors of the market. They are subjected to rigorous quality-testing at all stages of production to ensure optimum end user satisfaction. Our workforce is divided into specialized teams that take care of different departments....
