About Us

Stresstech Engineers Pvt Ltd was established in the year 2005. It's a company which offers specialized services for Post Tensioning and Ground Engineering works. Stresstech is licensed to use the pre-stressing system of Presscrete Engineering Pvt Ltd. Singapore who have provided such services in China, Malaysia, Vietnam, Fiji and Papua New Guinea.

Stresstech's Design Team which is lead by highly qualified and experienced engineers provides design support starting from the preliminary design stage of the project. Specialized prestressing design softwares such as ADAPT P.T, ADAPT FLOOR PRO, PROKON & RAPT are used by the design team.

Continues training keeps the skills of the workers upgraded ensuring high quality workmanship. The inventory consists of a wide range of prestressing equipments and accessories such as jacks, hydraulic pumps, dead end devices, grouting pumps and duct forming machines.

During the last three years Stresstech has executed major projects for reputed companies in India. Special precautions have been taken to ensure the use of proper techniques, strict quality control and adherence to time bound completion schedules. This has resulted in Stresstech becoming the most sought after name for Post Tensioning works by Builders all over India.
