About Us

Green Tree Technologies is an innovative company which focuses creative learning and teaching method which benefit both the students and teachers as well. Green Tree is already in the process of formulating state-of-the-art teacher training programs to help teachers adopt technology in the knowledge-sharing process. This technology-based process facilitates better communication between teachers, Students and parents and allows many-to-many interactions for students to benefit from peer and expert interactions.

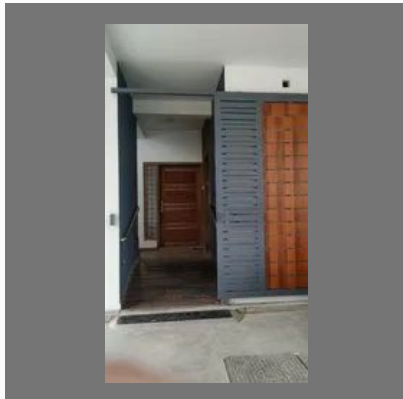

As an organization Green Tree Technologies cultivates an atmosphere where creativity is at its utmost and is reflected in its every undertaking. Green Tree is having a creative and enthusiastic pool of content, technology and marketing platforms; the best in their fields, which enables it to meet the toughest of challenges and foster further growth.
