About Us

Sukino Healthcare Solutions is India's leading provider of long-term health care management for patients with chronic ailments including, post-stroke paralysis (hemiplegia), chronic kidney disease, total knee or hip replacement surgery, poorly controlled diabetes mellitus, hypertension, and cancer requiring pain management, palliative or end of life care. We act as the bridge between the hospital and the home, delivering out-of-hospital care that enables the patients to either achieve a speedy recovery in the best suited environment or achieve highest quality of life during their end stages.

We believe that when it comes to taking care of those in suffering, good intent matters as much as expertise or legacy. Most out-of-hospital healthcare providers in India either deliver home care or have walk-in clinics for consultations. Patients discharged from the hospital have to depend on multiple unrelated providers, depending on whether they need care at home, in a rehabilitation centre, or at a hospice. This makes continuity of care impossible and worsens patient outcomes.

At Sukino, we take a holistic view of your health needs and tailor-make the solution to suit your specific health status. We assess your condition and advise you on what will work the best for you – care at your home or care in our fully equipped, rehabilitation facility with 24-hour nursing and medical care. We are India's only continuum healthcare company that...
