About Us

Sun Shine Industries was established in the year 1980. We are importer and supplier of Electrical Components, Electronic Switches, Electronic Circuits, Measuring Instruments, Preset Potentiometer etc. Our products are fabricated using high-grade material, which are widely appreciated by our clients owing to their robust structure, high utility and international quality standards. Laying complete focus on the research and technology wing of the company, we are committed to invested considerably. This is done with a clear aim to enhance the effectiveness & superiority of our range. Our R & D is based on scientific innovation and every year, we devote a large share of our turnover to R & D activities.

The company was founded by Mr. Parag Punj who has got an extensive industry experience which further helps us in establishing a monopoly in the market. The company runs with the belief of providing a variety of products at very reasonable prices which would attract a large number of clients to deal with us. We have been providing the products at the most prompt deliveries to our clients that helps us in flourishing our business world wide. Careful planning and execution of our marketing strategy has strengthen the company to perform in a more client centric manner.

Responding to the operating conditions and industry practices worldwide, our engineers design the most suitable products. Configuring durable products that make...
