About Us

The "**Super**" group of industries started 3 decades ago as a single product company. Today after a span of three decades, it has emerged as a broad based organisation renowned for its dynamism, creativity & versatility. The Group started with a humble origin has now grown into the present "**Super**" Group with **SUPERFREEZE INDIA LIMITED** as a flag ship company with well equipped manufacturing unit in an area of 8 acres of land with a completely modernised foundry, C.N.C. Machines equipped Machine shop and the most modern Research and Development Center for wide range of **Industrial Refrigeration Equipments**. The R & D Department ensures continuous up-gradation and introduction of world class Technology and product of international standards. To further ensure the quality, each product is subjected to stringent quality control. As a result of which, our products are acclaimed nationally and internationally for its high standard and functional efficiency as per ISO-9001: 2000 standardization. **SUPERFREEZE** has entered into global market with its world class **refrigeration equipment** and solutions. Our vision is to become a dependable and trust worthy source of high-tech equipment for the industry. We are determined to climb newer heights year after year. The corporate office of **SUPERFREEZE** India Ltd is situated at Gurgaon(Haryana). The manufacturing units with Research and Development...
