# Superteck Engineering

<https://www.indiamart.com/superteck-engineering/>

We, an ISO 9001:2008 Certified Company, are noted as the reputed Manufacturer, Exporter and Supplier of a wide range of Metal Casting, Forged and Machined Component, Machined Part, Forging Part, Ring Rolled Part etc.

## About Us

Established in the year **2006**, we, “**Superteck Engineering**”, are the eminent names, engaged in **manufacturing, exporting and supplying** different types of **Industrial Machined Components, Forging Parts, Ring Rolled Parts, Brass & Bronze Casting Parts, Investment Castings, CI Castings and Sand Casting Parts**, etc. Keeping in mind the various standards and norms of the industry; we design these products using the best quality raw material and latest techniques. Products offered by us are acknowledged among clients for their dimensional accuracy, abrasion resistance, easy installation, compact design and perfect finish. These are available in various sizes, dimensions and other related specifications as per the variegated needs of clients.

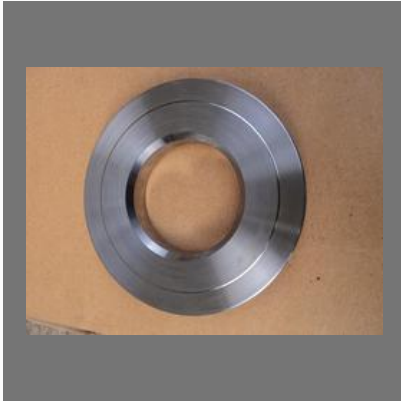

Located at **Rajkot (Gujarat, India)**, we own a modern infrastructure that is installed with all the requisite facilities, which helps in large scale production of products. We are backed by a state-of-the-art infrastructure that is constructed over a large area. Our infrastructure is divided into different departments that are manned by our experienced professionals. We have equipped our manufacturing unit with hi-tech machines that enable our professionals to carry out a smooth production process. Apart from this, we also make sure that the machines used in the production process are lubricated on frequent basis and checked on mechanical properties. We have...
