

Supraveni Chemicals Private Limited

<https://www.indiamart.com/supravenichemicals/>

We are one of the manufacture, supplier and exporter of industrial chemicals. These chemicals are widely appreciated by the clients for the purity, high effectiveness and accurate composition.

About Us

Incepted in the year 1990, **Supraveni Chemicals Private Limited** is one of the leading manufacturers, exporters and suppliers of chemicals. These includes **Compound Acids, Chemical Solvents, Fine Chemicals, Industrial Salts, Chemical Salts and Battery Chemicals** used in batteries electronic, electroplating and research institutions. Our entire range of chemicals is manufactured and processed according to the international quality standards. Owing to the quality, these are appreciated by the clients for purity, precise pH value, non-reactive nature, high effectiveness and accurate composition. We conduct stringent quality tests for our range of chemicals to ensure that the chemicals meet international standards in terms of accuracy, efficiency and quality. Quality tests are conducted on the basis of well defined parameters such as Purity level, Composition and free from impurities. Due to the assurance of high quality standards, these are extensively used in lead acid batteries, nickel cadmium batteries, electroplating and PCB industries, research laboratories, and electronic industries and pharmaceutical industries. Under the able leadership of our Founder and Mentor Mr. V Somasundaram, we have transformed our company into a well known manufacturer and supplier of chemicals. Capitalizing on the expertise, we started as a manufacturer of special Paint remover and Chemicals for PCB assemblies. Soon, we started manufacturing material like...
