## About Us

Established in 2012, we, **Supreme Scanning Services** is one of the leading **service providers** of **Document Scanning Services, Document Management System Services, Optical Character Recognition Services, Digital Archiving Services, Retrieval System Services and Image Data Entry Services.** We provide highly efficient, customized & cost effective solutions to manage our clients end to end office document life cycle. Our Document Management Solutions helps you with preserving your important documents digitally. This PAPERLESS OFFICE Concept will help you to save precious time & effort allowing your organization to focus on its core objectives. With a wide variety of services like Document Management System, Document Scanning & Digitization, Book Scanning, Books Preservation, Books Restoration, Microfilms and Microfiche conversion and Digitization, OCR, Indexing and so on. **The Concept of Digitization?**

Digitization is a process that converts paper / documents by scanning into a format ready to read through computer / ipad or Tablets. **The Concept of Digitization?**

Why do we need to digitize the documents - Physical documentation is an inseparable part of our life style. Books, certificates, Reports, drawings, memos, invoices, records etc are part of our life business. Over the time, the paper documents can build up significantly, making it difficult to locate the...
