

# S V S Wires Private Limited

<https://www.indiamart.com/svs-wireshyderabad/>

Manufacturer and exporter of polyethylene coated wire shelves and stainless steel coated wire shelves.

## About Us

SVS Wires works on the solid foundation of the very latest technology and the best equipments, supported by a team of highly qualified and well-trained personnel. In a short span of time, it has become one of the leading names in India as well as abroad as manufacturers of superior quality refrigerator wire shelving in India with all the refrigerator manufacturing companies in India under its fold. The wire shelf manufacturing plant was started in 1995 with a production capacity of 15,000 shelves per month at Hyderabad. By 1998 the wire shelf manufacturing plant at Hyderabad reached a capacity of 3,00,000 shelves per month. In 1999, condenser (wire-on-tube) manufacturing was started at what was earlier known as Rajat Coats Pvt Limited and later merged into SVS Wires Pvt Limited. Total installed capacity of the condenser plant is 60,000 Nos per month. In 2002 in same company i.e. Rajat Coats Pvt Limited, we added another product range i.e., the filter driers, strainers, accumulators etc. In 2003, an independent wire shelf manufacturing plant was started at Ghaziabad, near New Delhi to cater to the Northern region. This plant has an installed capacity to manufacture 400,000 to 500,000 refrigerator wire shelves per month and is the largest wire shelf plant in north India. 2004 saw the commissioning of one more wire shelf plant near Pune with an installed capacity of 2,00,000 shelves per month and soon to be upgraded to 4,00,000 shelves per month.
