About Us

Symbiosys Technologies was founded in 2001, is a 100% Export Orient Unit, registered in the Visakhapatnam Special Economic Zone (VSEZ). We Provide high quality services and solutions to our global clientele worldwide. The development center for Symbiosys Technologies is located in India with offices in the US. The company aims at developing innovative and cost effective end to end technology solutions with high performance and security. Since our inception, Symbiosys Technologies has always been committed to delivering excellent results for our clients catering to their requirement by providing them with highest quality of offshore development services on various platforms. As results-oriented problem solvers, we thrive to successfully meet our clients' requirements on a priority basis. We take pride in teaching the technology to everyone we talk to and feel privileged in getting them to experience it, we specialize in providing Xpress services (Express Solutions online). Business Strategy and Approach:

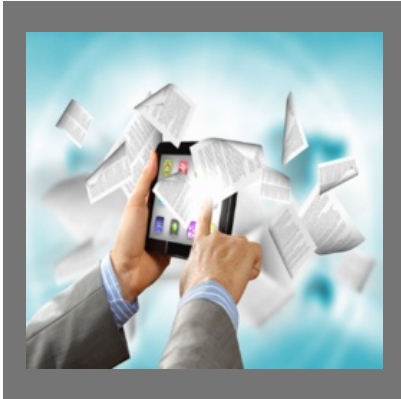

- We help our customers focus on the core business activities by providing them high quality and low risk solutions to their complex problems.
- We meet specific client requirements by developing strategic business solutions using onsite, offsite and offshore project execution methodologies.
- Provide consummate and laudable products aimed at customer satisfaction.
- Maintain stringent time lines for the product deployment.
- Pride...
