Synergy Automatics is an organization specialized in manufacturing of high quality metal parts, Industrial Spray Nozzles, Water saving Nozzles and dealing with Eco friendly products.
About Us

Synergy Automatics is an organization specialized in manufacturing of high quality metal parts. We provide our customers with complete machining solutions by consistently exceeding our customers’ engineering, quality, delivery, pricing and service expectations. We are focusing on long-term and sustainable development concepts with our commitment to quality standards and customer service is stronger than ever. Synergy Automatics have state-of-art CNC machines to manufacture metal components to meet our customer’s requirements as per print. The products are now more complex and the parts we produce today feature cross hole drilling and tapping, slot milling, polygon milling, “C” axis milling, miniature hole drilling, pickoff with complex and extensive backworking, milling of non-conventional forms, eccentric and off center work. Customers can design complexity into their product features because we have the technology to produce it to their specifications. Our Product suits to all industrial assemblies & industrial applications. We supply medium to high volume Brass products like Brass Electrical Components, Brass Turned Parts, Brass Cable Glands & Fasteners, including Sub-Assemblies to specific drawing tolerances. Due to sound engineering and innovative flair, We can solve manufacturing requirements of the most technically demanding parts. With state of the art machineries, skilled labour, sufficient measuring instruments and Well...
