

# Tailored Solutions Private Limited

<https://www.indiamart.com/tailored-soln/>

For SMEs & Enterprises in need of IT Enabled Services, Tailored Solutions provides UX, E-commerce, Mobility, Cloud & Virtual Reality solutions which allows you to focus on your core business and leaving the IT Enabled Services on us.

## About Us

We are a group of cool geeks, who have been successfully serving the IT industry for the last decade. We started off as a small, but ambitious, group of young techno savvy professionals way back in 2003. Today we lead in the Gen-X of web development and web technology! We have the perfect solutions for your Web development, Web maintenance, Open Source Technology, E Commerce Solutions, Web design, Mobile Applications, SEO. We are a team of 70 young, passionate and enthusiastic analysts, managers, programmers, designers, developers and SEOs who dedicate 50% of their day into giving you unmatched and unbeatable services just the way you need it. In the last five years, we have delivered a wide range of projects in France, United States, United Kingdom, Canada, Hungary and Australia and have established ourselves as one of the leading offshore web services provider globally. Engage us for your web requirements and experience the difference! What makes us different? Like our name suggests, we provide 'Tailored Solutions' meaning, we respect the uniqueness of each company and provide solutions accordingly. Our services are specially tailored, designed and crafted only to suit your customized needs. Secondly, we truly believe in prioritizing customer needs!! You have dreams for your business and we simply turn your business and your dream into web identity. Thirdly, we stand by you even after delivering your projects. You can count on us for service, maintenance and support...
