

Talc India

<https://www.indiamart.com/talcindia/>

We are manufacturers and exporters of quality industrial talc and versatile mineral for paper, paint, cosmetic, textile industry having fineness of 20 microns and have gained wide appreciation for chemical inertness and high fusion point.

About Us

Incepted in the year 1990, Talc India has emerged as renowned name engaged in manufacturing and exporting of quality talc. Our talc includes talc for various industries like paper, ceramic, rubber, paint, cosmetic, textile and plastics industry. Our processed talc has gained wide appreciation in the international market for smoothness, high luster and sheen, chemical inertness and high fusion point.

We are pioneer in processing talc up to a fineness of 20 microns for reputed MNCs including Hindustan Lever Limited. Ultra modern processing facilities coupled with well-researched formulations have made our talc most sought after in several industries. Our quality-testing unit houses advanced testing facilities to ensure whiteness, brightness and color characterization of talc.

Under the able guidance of our mentor Ms. Sunanda Acharya, a young entrepreneur we enjoy leading market position owing to quality commitment and timely delivery. It is owing to her visionary approach that we have successfully carved niche for ourselves in the global market.
