About Us

We at dr sudha tandon's fertility / ivf and endoscopy center offer all facilities for helping you solve all gynecological issues under one roof. Dr sudha tandon with her vast experience in the field of operative gynec endoscopy and assisted reproductive techniques (art) is there to help you solve your problem –whether it is laparoscopy for endometriosis or uterine fibroid or you need art treatment for fertility issue.

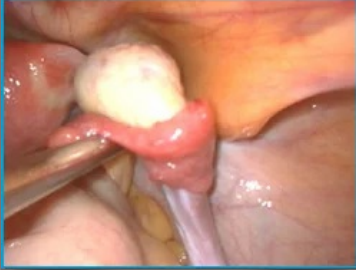

Many couples both from india and abroad have benefitted with the treatment at her center and have been really happy about their experience. In addition to our center at chembur we have recently added a new center at vashi.
