We introduce as an Aurangabad based company engaged in manufacture and supply Precision Machined Components, Precision Turned Components, Precision Ground Components, Small Sub Assemblies and EPS Moulding Dies for Glasses & Containers.

About Us

Incepted in the year 2000, **Tanuja Engineering**, has emerged as one of the leaders in manufacturing and supplying comprehensive range of machined components, industrial precision components, precision turned components, ground components, small sub assemblies, EPS glass containers, EPS glass moulds and EPS molding dies for glasses & containers. Under the able guidance of our mentor, **Mr. Balaji Naragude** we have carved a niche in this competitive industry. Being an engineer, his 12 years of industrial experience has enabled us to conduct business on ethical grounds.

Supported by state-of-the-art machines we have been able to offer these components in specific dimensions as desired by our clients. We are supported by a dedicated team who leaves no stone unturned to offer qualitative products in stipulated time frame. Our research team coordinates with technocrats offer valuable suggestions that immensely help us in creating unique and practical products.

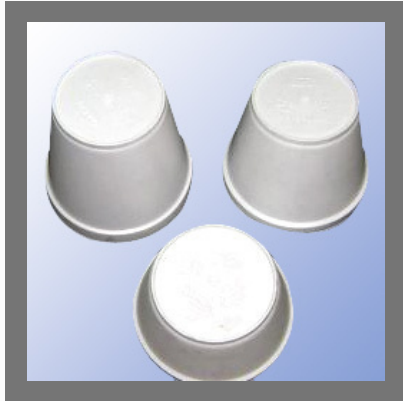

We also offer customized products to meet the specific requirements of our clients. Our policy of obtaining feedback from our customers from time to time and our open attitude of listening to their complaints and grievances have put us on the "Chosen One" list of our clients.
