About Us

Acme Communication was established in the year 2009. We are leading Service provider of Internet Lease Line Services, Wireless Internet Card Services etc. We are a pioneer name in the city readily involved in offering high quality and reliable Internet Leased Line Services to our esteemed clients. These services help the end user to become global network partners. We offer these reliable services as per the changing requirements of our valued customers. Accessible with us in most economical rates, these offered services are highly demanded. Besides this, these are rendered with perfection under the direction of skilled personnel of our team. We are climbing up the success ladders with a vision to lead our domain of expertise that comprises the areas of Power Protection, Corporate Telecommunications, Networking and Office Automation. In pursuance of this vision, we are going to establish ourselves as an organization that adheres to higher benchmarks in service excellence. Our range of products and services is designed and delivered in such a way that it can assist an organization in establishing it with an initiation to lead its specified domain of business and allied activities. Our service to the industry for over half a decade cannot be summed into a nutshell. The only thing that speaks volumes of our capability and dedication is our large repertoire of clientèle from an extensive and diverse range of industries. We strive to provide you with all your software and...
