Tata Motors Limited, a USD 42 billion organization, is a leading global automobile manufacturer of cars, utility vehicles, buses, trucks and defense vehicles.

About Us

Tata Motors is part of the USD 100 billion Tata group founded by Jamsetji Tata in 1868. Sustainability and the spirit of 'giving back to society' is a core philosophy and good corporate citizenship is strongly embedded in our DNA. Tata Motors is India's largest automobile company. We bring to the customer a proven legacy of thought leadership with respect to customer-centricity and technology. We are driving the transformation of the Indian commercial vehicle landscape by offering customers leading-edge auto technologies, packaged for power performances and lowest life-cycle costs. Our new passenger cars are designed for superior comfort, connectivity, and performance. What keeps us at the forefront of the market is our focus on future-readiness and our pipeline of tech-enabled products. Our design and R&D centers located in India, the UK, Italy, and Korea strive to innovate new products that achieve performances that will fire the imagination of GenNext customers. Across the globally dispersed organization that we are today, there is one thing that energizes and drives all our people and our activities – and that is our mission "to be passionate in anticipating and providing the best vehicles and experiences that excite our customers globally".
