## About Us

We have established ourselves as Leaders over a span of 16 years in the field of Process and Factory Automation, which includes Designing, Installing and integration of control systems. Our service is Innovative, Personalised and it comes with a long-term commitment to our customers. We are based in Central India, in Indore (M.P.) but our service is available to clients across the Sub-continent.

We have a team of trained, experienced and highly qualified engineers and technicians with a committed work attitude plus the abilities to undertake critical projects. We also have the capability to support a full-scale automation project.
