Offering system designing services, structural glazing services etc.

About Us

Technoskill Engineers & Contractors Pvt Ltd, has come a long way since its modest beginning 15 years ago. It is now a name to be reckoned with in the India's aluminium, glass and cladding industrial sectors. Utilising its capacities to hilt, the company offers an enormous range of products and it is catering to all requirements of the building industry, from villas to high rises. With strategic business links and partnerships with leading system suppliers, Technoskill possesses the wherewithal, technical know-how and infrastructure capability to execute any challenging and time-bound projects. The wider application of resources planning has helped the firm in the effective utilisation of resources and monitoring of projects. Technoskill has a relatively humble beginning in the early 90s as an aluminium fabricator for doors, windows and partitions. Realising customer requirements and ensuring their timely completion, the company developed a wide and ever growing clientele base. On reliability and the quality of products delivered to the countless patrons, the company has carved a niche for itself in the industry. In their pursuit for further excellence, the management of Technoskill has developed and implemented a quality management system in compliance with the guidelines of highly qualified quality engineers. All departments follows a documented quality system at various stages, from initial enquiry to the ultimate implementation. The company has its state of art...
