## About Us

We have entered the market in the name of **Teqnocrats India** in the year **1989**. One can contact us in our head office which is situated in **Bangalore**. Being pioneers in the industry, we are engaged in **manufacturing, supplying and distributing** wide array of **Energy Saver, Variable Voltage Auto Transformer** and **many more** products. We manufacture products from high grade quality material and using latest techniques and machines. We stringently test our products to adhere to industry standards and in recommended specifications. Electrical Energy is costly and cost per unit will be going higher by the day. It is adversely affecting the budget of individuals and industries alike. The need to reduce energy costs are being felt by one and all. Unbalanced and fluctuating voltage not only affects the production but also reduces the life of machines/equipments. A small voltage unbalance of 3% can impact capacity of inductive load by 10%.
