About Us

Cliché is a design studio based in Tamilnadu, India. It is a small gathering of designers & developers who wish to create their own space. We use visual language which fits perfectly with the brand and goes hand in hand with its evolution. Our synergies with photographers, printers, strategists ensure that the end product is nothing but perfect. We can make the visuals speak for you better than our words. Our team is a blend of experienced hands with fresh blood. With total combined experience of 20 years the squad predominantly descends from the creative agency lineage. Other than India in past 3 years we have worked with clients from different countries like Malaysia, Germany, Australia, UK and UAE.
