NILGIRI FOODS AND BEVERAGES - Manufacturer and Wholesale Trader of coffee machine, gaggia italian coffee machine & jura coffee machine since 2002 in Mumbai, Maharashtra

About Us

Established in 2013 by Gerson Aranha, The Coffee Co. is a licensed brand of Nilgiri Foods and Beverages (estd. 2002) Despite its modest beginnings – an initial offering of 2 coffee blends and a clientele of just 12 – today, The Coffee Co. caters to over 500 select establishments, offering several exquisite blends of fine, shade-grown coffee, apart from a range of filter coffee makers, brewing equipment and accessories, moka pots and state-of-the-art coffee machines. The Coffee Co. also exports roasted coffee beans to a number of countries across the world, having established several dealerships for the company's products. But while The Coffee Co.'s fortunes have changed, their core values haven't: to ensure freshness, quality and consistency in the final cup of coffee, and excellent after-sales service. This is possibly why its network of loyal customers has grown over the years, and the company has taken great efforts to instruct them in brewing and tasting, to ensure the ultimate coffee experience. It is The Coffee Co.'s ambition to serve all parts of the country, and gain the reputation of being India's top destination for all things coffee. An ambition the company seeks to achieve, by offering patrons some of the world's finest shade-grown coffee from centuries-old forest plantations in the misty hills of Chikmagaloor.
