About Us

Thiess India was established in 2006 for providing world class Mining and Construction services to the Indian Mining Industry.

Thiess India is a 100% subsidiary of Thiess Pty Ltd, Australia, which is a leading mining, construction and services contractor with diverse operations throughout Australia and selected international markets. Our reputation is built on consistently meeting and exceeding the expectations of our clients across all our operations. We shape sustainable solutions and deliver successful outcomes for clients. Thiess has come a long way since our founding days in 1934 in Queensland, Australia. Since then we've grown and now we are world's largest supplier of outsourced coal mining services. Thiess mining accounts for about 40% of Thiess's annual turnover.

At Thiess we recognise that investing in our people is investing in our success. We care for their health and well-being, provide opportunities for personal and career development, and recognise and reward performance. Our more than 17,000 employees represent diverse cultures and backgrounds, and their teamwork, enthusiasm, skills and experience consistently invigorates high performance. Our core strength lies in our diversity and the ability to offer a whole of business approach to even the most complicated of projects.
