About Us

Our Town Neemuch is Asia's largest and world's second largest Agricultural producing and marketing yard as per the report by MCX & WTO, which is in term of volume of Agri - commodities traded.

We at Neemuch, India started this company with a vision to serve our clients better in every aspect as they are our top priority. As the Exporters and Traders who were , up till now in the history of the country , were carrying on the exports from India , most of them belonged to metro- cities, meanwhile they sourced products from big hubs of agricultural trade like ours in India, and act as an extra mediator which leads to addition in prices and degradation of product qualities being delivered. Tilly & Yield Exports work as a dedicated team to serve our clients with the best in market prices along with keeping the Quality standards set high.

The region enjoys geographical & climate benefits from the nature and fertile Red soil fields of the Malwa region pile up food grains of a vast variety, which makes our town: Neemuch, A hub in India, as soon rather will be an International hub for the Agri -Products traded.
