About Us

Tirupati Balaji Relocation Services are recognised as specialists in packing and moving household and Office Goods Nationwide. With over 25 years experience within the packing and moving industry we can offer all methods of transportation, either by road, sea or air to virtually any destination in the world.

We realise that moving nationwide can be a very stressful prospect and to assist you in planning your packers and movers need, we can arrange for one of our expert surveyors to visit you at home to assess the volume of your effects to be moved, free of charge and to discuss and plan your move in greater detail.

Following our surveyors visit to your home, we will submit a firm written door to door quotation, including optional transit insurance cover, based on the volume of effects to be moved, which we feel sure you will find to be cost effective.

As professionals we know just how to make your relocation experience go smoothly. Our relocation specialists will work around your criteria, your time frame and your pace.
