We are service-providers. But there is no fixed menu of whatever we offer. You only have to ask us to do whatever you need done, and it's done. Let us illustrate with a hypothetical situation;

## About Us

We call ourselves your **Welcoming-Committee** to Gujarat/Saurashtra. And the way we function, you could end up welcoming us as a part of your team.

There is **no dearth of reasons to bring you to this part of India**. Some of the best fabrics in the world are made here, Cotton, silk, or synthetic. The incomparable artisans of Kutch and Jamnagar lend their singular touch in producing the unique

"Bandhani" - fabric printed by "tie-and-dye" method- one article at a time, not reproduced anywhere else in the world.

Indeed, this part of India is in the forefront in many fields, and one just cannot enumerate them all here. As an alert businessman on the ball, you could just be eyeing this as a prospective area of your future operations. Whether you are a buyer or a seller, your market could well be here.
