About Us

We as a team believe in Transforming Telecom industry. Our rich experience of handling end-to-end Infrastructure of one of Biggest IT legend for more than 15 man years in the enterprise telecom industry has enabled us to understand the shortcomings in the service offerings available to clients. Our endeavor is to deliver nimble & flexible service delivery models which can adapt with changing technology requisites of customers. We intend to fill in the gaps and create a “Services Model with a Difference” there by ensuring, investment protection, timely fulfillment of client requirements with reduced cost of delivery.

Our company is managed by a set of like-minded people who bring versatile knowledge, varied expertise and perspective to business. The team is an excellent blend of experience and youth with service management and business development experience at the core. At our Company, we Supply, Implement, develop and Manage customer’s infrastructure and related applications using experienced manpower and time tested delivery models. Our capability to design, supply, implement , auditing, training etc provides a single point of reference for our customers. Incorporated in 2013, our Company is headquartered in Bangalore. Our ability to understand our customer requirements, and deliver end to end customized solutions makes our Company a premier choice to many key customers of the principle OEM.
