## About Us

Established in Palakkad in the year 2011, TRANSPARENT ACADEMY is the brain child of professionals. It strives to use the collective wisdom of the founders, through their experiences at various stages en route to successfully qualifying to become a chartered accountant. Taking into account the various factors that prevent the student from achieving that ever elusive success in the examination, the course has been designed to take a distinguished approach. It has been in the conceptual stages for over 3 years before it eventually materialized. In the process, we have been able to lay our roots to address these very hurdles which most student face in the roadmap to this professional qualification. It is only fitting to say that it is our love for the PROFESSION that has guided us to take this leap.
