We are an ISO 9001:2008 certified manufacturer and supplier of boilers, cooling systems, power plants and heat recovery systems. These are widely demanded in cement, steel, ceramics, food, pharmaceutical and allied industries.
About Us

Established in the year 1986, we “Transparent Energy Systems Private Limited” have created a unique niche in the domain of manufacturing, exporting and offering services for Boilers, Cooling Systems, Power Plants and Heat Recovery Systems. All these are based on latest technology and are appreciated for excellent performance, low maintenance and easy installation features. As per our quality and research policy, we ensure that all our manufactured range is in compliance with the industry standards and thereby keep us ahead of our counterparts in the stiff market competition. We have also collaborated with some of the world leaders in order to maintain optimum quality in the product range. Our group companies also assist us in building a vast client base across the globe. The sophisticated production and research facilities enable us to comprehend the varied demands of clients and accordingly offer them the requisite solutions. As a result of this, we have been widely appreciated by them throughout these years.
