Triangle Simulation Private Limited

https://www.indiamart.com/triangle-simulation/

An ISO 9001:2000 certified company, we are one of the leading manufacturer and exporter of a comprehensive range of industrial simulation equipment. Our range is globally accepted for its long serviceability, functionality and durability.
Established in the year 1979, Tri-angle Simulation Pvt. Ltd is one of the leading manufacturers and suppliers of simulation systems that are widely used in the engineering industry. They also find great usage in the chemical and refinery industry. Our systems are widely appreciated for their optimum performance, longer functionality and durability.

The organization was established under the able guidance of Mr. Rajesh Bakhai & Mr. Tejas Bakhai who are presently working as the Managing Director & Director of the organization. They have industrial expertise of over 28 years that helped them to establish a remarkable benchmark in this industry. Presently, the company has developed a unique PC based 210 MW thermal power plant Simulator with interactive Panel Emulation that enables in developing the range in compliance with the international standards.

We always try to meet client’s needs with our services in offering our simulation systems with a longer functionality. Our researchers work round the clock to implement new development in the development of present range. We take valuable recommendations and advices from the clients so that we can develop our range accordingly and make them feel more satisfied.
