Everyday around the world, customers come to TÜV SÜD with questions. “Can we make it better, faster, more efficient and sustainable? How do we strike the balance between quality, profitability and sustainability?”

About Us

Beyond solving problems, TÜV SÜD is dedicated to adding tangible economic value to our customers. That is why “Choose certainty. Add value.” is the core philosophy behind everything that we do. We partner our customers with early consultation and continuous guidance to make sustainable progress a reality. Headquartered in Munich, Germany and founded in 1866, TÜV SÜD is one of the world's leading technical service organisations. Today, we are represented by about 19,000 employees across 800 locations, partnering clients wherever they are in the world. Our community of experts is passionate about technology and is inspired by the possibilities of your business. United by the belief that technology should better people's lives, we work alongside our customers to optimise their operations, enable them to access global markets and enhance their competitiveness.
