About Us

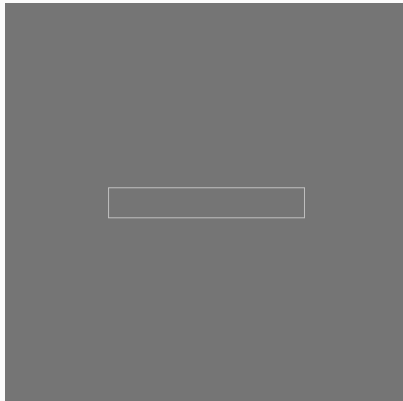

In a world looking for newer sources of energy, the answer lies in the oldest one. The earth receives more energy from the sun in just one hour than the world uses in a whole year. Harnessing this energy isn't new. The examples are all around sun-bathing or an east-facing house or Surya Namaskar aren't we all looking for the sun's blessings all the time. The trick is to harness solar energy for everyday purposes. Solar energy. To solar power. To solar electric systems. It takes innovation. That is where we come in. Though we haven't developed the technology to harvest solar energy, what we have developed is an ability to bring it closer to you. We are constantly looking to make your consumption of electricity, economical and efficient not to mention Eco-friendly. Offering what is already available in the market is only one aspect of our service. Customizing them to your needs is what we take pride in. We bring innovation and customization to your solar solutions. The future is green. The Government of India encourages the use of renewable energy sources with tax benefits, import and customs rebates, and other incentives. The time is ripe. The proliferation of LED lighting solutions has given a tremendous boost to the use of solar energy. Reliable LED products add to the life and acceptability of solar electric systems. And we have the privilege to have the pioneers in LED equipments as our technical partners. Their R&D center has an abundance of expertise in designing lighting...
