Unique Biotech Ltd (UBL) is a world class, dedicated and a well laid out large scale fermentation facility established in 2001 for Probiotics.

## About Us

Unique Biotech Ltd (UBL) is a world class, dedicated and a well laid out large scale fermentation facility established in 2001 for Probiotics, Enzymes, and Nutraceuticals with state-of-the-art equipment in the Genome Valley, Hyderabad. We are totally committed to the discovery, development and commercialization of innovative solutions for improved healthcare at affordable cost.

UBL has dedicated blocks for production of Bacillus sp, Lactobacillus sp., Bifidobacteria sp., Saccharomyces boulardii and Serratiopeptidase.

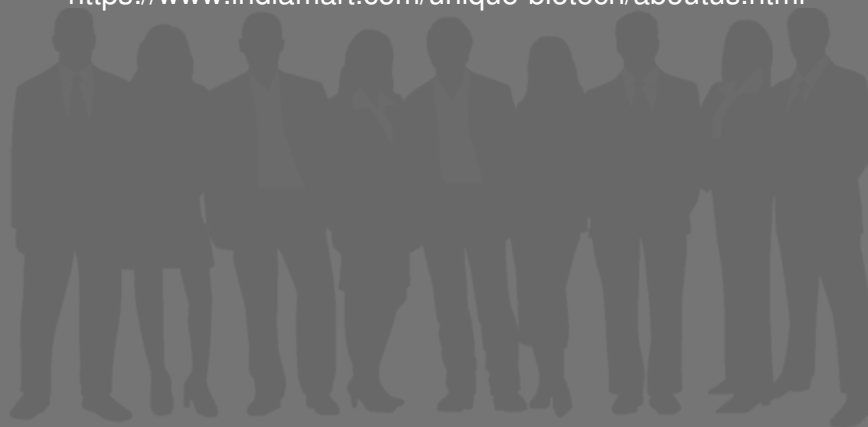

Unique Biotech is an ISO 9000:2008 and a WHO-GMP certified company. Our Centre for Research and Development is recognized by Department of Scientific and Industrial Research (DSIR), Government of India. Unique Biotech is working in the development of disease specific probiotic solutions.

With an unparalleled and unique combination of technical know-how, skilled resources and quality manufacturing, UBL has gained worldwide prominence in the field of Probiotics and is well positioned to open up exciting new avenues and offer products that surpass global standards.

Unique Biotech has its strong presence worldwide through exports to USA, Europe, Japan, South Africa, Australia and the like. The company with its strong technical and marketing teams extends unparalleled customer service and builds strong relationships.
