About Us

Unitech Engineering & Management Company was established in the year 2010 in Pune, Maharashtra. We are the Service Provider of the Land Survey Services, Project Estimation Services, Project Planning Services, Tender Services, etc. Our exceptional ability is to visualize the most opportune time and appropriate product line with the right blend of target marketing and translate them into feasible action plans. Owing to the research based work and a strong dispensation towards learning all the finer nuances of project engineering and management capability, we have emerged as a preferred service provider for high quality engineering services in Pune, Maharashtra.

In every field of our activity, we make sure to provide our services to the utmost satisfaction of our clients. At no stage of projects or engineering consultations, do we keep anything under the wraps or deliberately conceal anything of concern to the clients we work with complete transparency in level playing environment. The services are provided in a highly transparent manner whereby the clients are kept updated all the time. This unique approach to our services has lent credibility to our organization and resulted in winning the trust of our patrons.
