About Us

United Books and Periodica was started with a view of providing quality literary research tools to companies dealing in scientific fields. The aim was to help both individuals and organisations to update their scientific know-how so that they can compete more effectively. The company is backed with over 25 years of experience in supplying books, periodicals, journals, back volumes of journals, health reports and CD ROMs to PHARMACEUTICAL, CHEMICAL and COSMETICS manufacturing companies. It is lead by a dynamic team of professionals who have a through knowledge of science related subjects. Thus, they are fully equipped to guide customers in selecting the right literary material to fit their requirement.
