About Us

Vaibhav Casting was established in the year 2015. We are pleased to introduce our selves as one of the Manufacturers of C.I.Casting in different grades for your kind reference purpose. Our unit is located at Rajkot (Gujarat) having two no of cupola One is 30" diameter and one is 36" diameter. Our Production Capacity is 500 M.T of C.I casting from 0.5 GMs to 5 M.T single peaces. All the products are manufactured under strict supervision of well qualified and experienced technical personnels.

We are also having workshop facilities within our premises to provide well finished casting in all respect to our valued customers. We are also having facilities for metallurgical and chemical testing to implement extremely stringent quality control from procurement of raw material up to the dispatch of finished goods to ensure our customers the best quality.
