

Value Research India Private Limited

<https://www.indiamart.com/value-research-india-privatelimited/>

Provides services in mutual fund research & equity research.

About Us

Value Research is the independent provider of investment information. Founded in 1990, we capitalise on our unique position the first dedicated fund research company in India. Closely tracking the universe of Indian mutual funds, we have emerged as the most trusted provider of mutual fund information in India. Today "Source: Value Research" is the most widely used mutual fund performance attribution in India. Well known for fund performance reporting and Fund Ratings -- the first risk-adjusted rating system for managed funds (since 1994), we publish our mutual fund data, ratings and commentary through Internet and print services.
