About Us

Micro ingredients in the form of Vitamins trace elements added in the minute amounts in feed to enhance the productive performance. A complete premix is a mixture of Vitamins and Minerals, Feed Supplements and feed additives blended in right proportions along with suitable carriers diluents and anticaking agents. It ensures the optimum delivery of each micro ingredient into the final feed. Better homogeneity of the Premix contributes to improved growth and production performance. VALVIN delivers customized blend of desired functional ingredients – vitamins, minerals, amino acids, nutraceuticals in a homogeneous premix.
