V.C.M.(P) Ltd. Has been started by sri G. Koteswara Rao in the year 2005 and started its operations with spinning activity in 2007, with a spindle capacity of 14400 and steadily grown to a capacity of 18,000 by 2010. Over the years the management has ...

## About Us

V.C.M.(P) Ltd. Has been started by sri G. Koteswara Rao in the year 2005 and started its operations with spinning activity in 2007, with a spindle capacity of 14400 and steadily grown to a capacity of 18,000 by 2010. Over the years the management has acquired an in-depth knowledge on raw-material. We have also installed Evenness Tester Machine for testing of cotton for all parameters like strength, length of the fibre, etc.

By virtue of experience of more than two decades with the technical support of the latest machines available we select the best of raw-material for input in our plants. To meet all the parameters in terms of international standards the management kept on modernizing all its mills and the present equipment available is state-of-art machines in all the plants of the Company. We have quality testing equipments to test all parameters. Thus we manufacture quality yarn to suit all requirements.

To stay at the forefront of technological superiority by adopting, assimilating, understanding, implementing fresh innovative concepts for the betterment of the Industry, Community and the Country. Our dedicated , committed and involved cotton selectors at different stations headed by experienced supervisors,spares no pain in the selection of Kapas or Raw cotton available in the market.

V.C.M.(P) Ltd. would aim at delighting its customers by fulfilling their stated and implied needs.

V.C.M.(P) Ltd. would adapt to up –gradation of...
