Manufacturer of relay modules, analog interface accessories etc.  
Manufacturer of relay modules, analog interface accessories etc.

## About Us

was established in 1989 with the aim of becoming the preferred partner for product design. Today after 20 years of experience in the field, V-Care is one of the best product design consultants in Bangalore, India with an impressive client and product list.

We can design to your specification on a technology transfer basis for your own production and we also have small production run capability. We develop made to order products, to meet customer specifications. Our reputation for producing quality products & services has helped us enhance our customer base. Clients choose V-Care and stay with us for our ability to provide world-class technical solutions and reliable support.

Customer care and satisfaction is part and parcel of our work culture. We nurture continuous innovation, teamwork, and employee involvement and stay focused on customer needs. We have successfully established customer loyalty by working towards establishing lesser gap between customer's wants and products/services we deliver.
