About Us

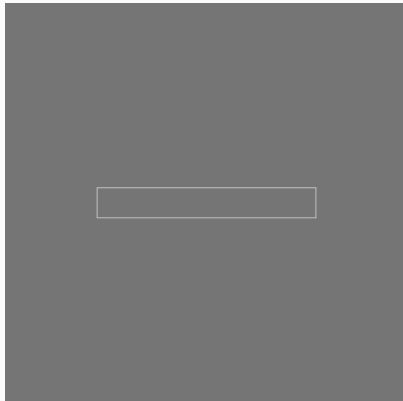

Vijaya Chandra industries was founded in 1989. The importation of a great deal of helical springs was noticed by VCI's founder. And the first fully automatic spring making machine in Andhra Pradesh was introduced, there of. VCI moved to its own factory built in 1992 by its own capital to enlarge its production program and capacity. By means of never - ending research and development activities in quality and productivity, vci has become the leading and the largest cold coiled spring manufacturer in Andhra Pradesh.
