<https://www.indiamart.com/vdintellisys-technologies/>

We are world leading manufacturer of acf bonding machine, laser lcd repair machine, bga rework stations, smt reflow oven and smt machine. ,our products have been exported to more than 100 countries worldwide.

About Us

Since our incorporation in **2010**, we, **VD Intellisys Technologies Pvt. Ltd**, have emerged as key player of this domain engaged in exporting, manufacturing, supplying, distributing, trading and importing superior quality Electric Products. Our comprehensive variety of products includes Laptop Adapter, GA Rework Station & PCB Table and Soldering Equipment. These products are well reckoned in the market for their exceptional performance, long functional life, high accuracy, smooth finishing and sturdy design. Prior to this, we are offering computer and laptop repairing services which are known for their cost effective and authenticity.

To serve our clients with maximum satisfaction and perfection, we have implemented modern infrastructure system with advance machine tools and techniques. With the use of Modern warehousing facility, we have been able to serve bulk demands of our clients with ease. Moreover, we utilize team of diligent professional with the sole purpose of making defect free quality supply of products to our customers. These professionals adamantly inspect the products at every stage from procurement till delivery to our customers. In addition to this, we also have separate team for executing repairing services with high efficiency and patience while sustaining ethical relationship with clients. We organize skills enhancement program for these professionals at regular intervals as per latest industrial standards. Owing to these aspects,...
