Vijaya Building Materials

<https://www.indiamart.com/vijaya-building/>

We design, manufacture and execution of Precast Concrete Systems, Elements and Concrete Prefab technology for the Construction Industry.

About Us

Vijaya Metal Finishers was established in 1983 as a dedicated Metal finishing company. Since its establishment VMF was successful in introduced non cyanide zinc plating in India way back in eighties. VMF also succeeded in transferring Lab size technology of Selective Black chrome plating from National aerospace Laboratory to Solar Water Heater industry. VMF had monopoly of more than 5 years in these processes. As many followed the technology VMF decided to enter into Aerospace Chemical Process field. Since 2006 VMF is totally dedicated to Aerospace Chemical Processing and is the first private company in India to venture into this field. As on now Vijaya Metal Finishers has more than 20 international Aerospace company approvals and aiming to get more and more approvals.

Vijaya Metal Finishers has State of the Art Special Process Plant located at Peenya Industrial Area in Bangalore, India. The company is well equipped with total quality management systems to produce dependable and cost effective products to meet the ever changing market dynamics.
